PROFILE

I'm a dedicated Software Tester and Cyber Security Engineer with hands-on experience in a SOC. I excel at finding and fixing security issues, ensuring systems are safe and reliable. Skilled in security assessments, penetration testing, and incident response. I'm a problem-solver who loves learning and working with teams to improve security and software performance.

WORK EXPERIENCE

SOC Analyst Intern

Satrix Information Security Ltd

Jan 2023- April2023

- Monitored and analyzed security events to identify potential threats and vulnerabilities.
- Assisted in incident response activities, including investigation and remediation of security incidents.
- Utilized security tools such as SIEM, IDS/IPS, and firewalls to enhance threat detection and response.
- Contributed to the development and implementation of security policies, ensuring compliance with industry standards and best practices.
- Utilized tools like OWASP ZAP and Burp Suite to perform dynamic and static application security testing, enhancing application resilience.
- Conducted regular vulnerability scans and risk assessments on network infrastructure, identifying and addressing security gaps.
- Conducted security code reviews and penetration testing on web applications, identifying and mitigating vulnerabilities such as SQL injection and cross-site scripting (XSS).

Self Employed

May 2023- present
